

Kennedy

Tank and Manufacturing Co., Inc.

"Kennedy Tank, as a company, is fully committed to providing a work environment that is as safe as possible for our team members and our customers. Our overriding goal is to provide a very safe work environment, while producing top quality products and services in a most efficient manner. Each of our team members are fully expected to follow rules, regulations, policies and practices to meet this goal. Any compromise relating to these is not acceptable.

The safety of our team members and associates is our number one value!" - Pat Kennedy, President

SAFETY PROGRAM HIGHLIGHTS

- A new hire training program with annual refresher training for all our team members. It is a combination of classroom and hands-on practical exams.
- All team members trained in confined space entry and rescue. Kennedy Tank recently constructed a confined space trainer to train our team members on specific skills related to our work.
- We utilize a behavior-based safety program to help drive safety through our jobsites.
- All of our team members are trained in first aid and CPR.
- We do daily toolbox talks with our team members.
- We conduct regular jobsite audits which are documented. These reports are circulated to the field supervisor all the way up to the company president.
- We recently worked with a former Navy SEAL to help promote team work and discipline for our field team.
