

The October Edition of Kennedy Tank Talk

Team,

Thank you for reading the October edition of Kennedy Tank Talk. Please see below to learn about exciting updates from the Kennedy Tank Team.

Shop and Field Combo Jobs!

We are one of the few companies ready to tackle projects that involve both our manufacturing facility and our field division. We are able to work together to provide as much value to our clients as possible on all tank projects.

These tanks were 16' diameter and were built in halves by our manufacturing team and then erected by our field division for a local customer of ours.

Welding School Visit

We welcomed the Mount Vernon welding school to Kennedy Tank this week to familiarize them with our team and get them more familiar with tank and vessel fabrication.

Thank you to **Rich Norris** and **Mike Curry** for leading this effort.

Kennedy Tank Safety Lunch

The Kennedy Tank team treated all teammates to lunch today to celebrate our manufacturing team's longest recordable free streak in the history of our company.

We are very proud of this record and proactively make safety our absolute number-one priority here at Kennedy Tank.

Well done by the entire Kennedy Tank team!

Welcome Taylor Evans!

The Kennedy Tank team would like to welcome **Taylor Evans** as our new quality control manager for our field division.

Taylor started in the non-destructive testing/inspection industry following the conclusion of his service in the United States Army in 2013.

He has worked in a wide range of industries including petrochemical, power generation, and food production, and is certified API 653 and STI SP001 above-ground storage tank inspector.

United Way Charity Program!

This week we started our annual United Way Charity program.

We look forward to hosting a chili cook-off, cornhole tournament, and much more to give money back to this great organization.

Thank you for organizing **Bridget Saylor!**

Please reach out if we can be of assistance on your next tank, vessel, heat exchanger, field-erected tank, or repair project!

Sincerely,

Jim Kennedy: Jkennedy@kennedytank.com, 317-780-3523
Tim Noyes: Tnoyes@kennedytank.com, 317-780-3526
Jim Dossman: Jdossman@kennedytank.com, 317-780-3554
Paul Bolin: Pbolin@kennedytank.com, 317-780-3528
