

The August Edition of Kennedy Tank Talk

Team,

Thank you for reading the August edition of Kennedy Tank Talk. Please see below to learn about exciting updates from the Kennedy Tank Team.

Kennedy Tank Special

Last Saturday, the team brought out the Kennedy Tank Special to a classic car and boat show on the north side of Indianapolis. There was even a Pat Kennedy memorial area at the show for people to hang out.

Many thanks to Bill Yazel and Jody Fesler for handling the logistics of getting the car safely to the show.

Several Interesting Projects in Fabrication

We continue to see more requirements for third-party passivation which is being performed above on a 40,000-gallon stainless steel API 650 shop-built tank.

This shell and tube heat exchanger bundle weighed over 20,000 pounds and was put together in our segregated stainless steel building.

PMI Testing In-House here at Kennedy Tank

We wanted to send out a reminder that in the past year, we decided to purchase a Sci-Aps X-505 PMI gun which is a lightweight handheld X-ray tube analyzer.

This allows our quality control department to identify alloy steels and welds within seconds.

We continue to see more and more PMI requirements on stainless and alloy projects and are happy to perform this in-house.

Kennedy Tank Teammates Start Band

We are proud of all five teammates who work at Kennedy Tank and formed a band that is performing on weekends all throughout Indianapolis.

Johhny Logan and the Roughnecks next show is on 9/1 at 10 pm at Duke's Indy. See you there!

Local Celebrity Presents to Kennedy Tank

We want to thank Kevin Bowen, local sports radio host who visited Kennedy Tank to discuss the upcoming Indianapolis Colts season and answer many questions from the Kennedy Tank Team.

Field Erected Tank Expertise

When it comes to field erecting tanks in the midwest and surrounding areas, there isn't a state that the Kennedy Tank boilermakers have not worked in.

These stainless steel API 650 tanks were 100,000 gallons made of 304 stainless steel.

Please reach out to any of your Kennedy Tank representatives if we can be of assistance on pressure vessels, tanks, heat exchangers, field-erected tanks, and

much more.

Sincerely,
