

The October Edition of Kennedy Tank Talk

Team,

Thank you for reading the October edition of Kennedy Tank Talk. Please see below to learn about exciting updates from the Kennedy Tank Team.

Successful Project Ships to a Proud KTM Customer

This week we shipped out the final three vessels on a nine-vessel order for a chemical plant located in the south. These three vessels were all 12' diameter X 20' tangent height on (4) support legs and made of 304 stainless steel.

This was a great project and we welcomed our end customer into our facility several times to ensure we were all in constant communication and expectations were met on all fronts throughout fabrication and testing. Special shout-out to [Rich Norris](#), [Ryan Wheeler](#), [John Wehr](#), and many more on this high-profile project.

Announcements from Kennedy Tank

The Kennedy Tank team starts our United Way fundraising campaign on October 25th.

Please consider purchasing a Kennedy Tank T-shirt for proceeds will go to the United Way.

Thank you for leading this effort
Alexa Walters!

We are very proud to announce the newest addition to our quality control team, **Derick Muse**.

Derick has been one of the best welders here at Kennedy Tank for many years specializing lately in building shell and tube heat exchangers.

Good luck Derick!

Kennedy Tank Attends TEMA Conference

The Kennedy Tank team attended the technical TEMA committee meeting in Houston, TX this week. We are a proud member of this organization of the leading shell and tube heat exchangers fabricators in the US.

Please be on the lookout for the new edition which will be released this year.

Welcome Jeremy Huser to Kennedy Tank as Controller

Jeremy graduated from the Mitch Daniels School of Business at Purdue and has been a licensed CPA for 12 years. He has 14 years of public accounting experience with Dauby O'Connor and Zaleski primarily in affordable housing.

Jeremy brings a wide range of skills with him including his ability to recognize and implement process improvements.

Jeremy will take over as CFO of Kennedy Tank once Hall of Famer, Gerry

Generator Base Tank

The Kennedy Tank team has started building generator base tanks.

These tanks provide sturdy support for your backup or emergency power generator. The low profile of the generator base tank design serves as the structural support for the generator mounting while providing storage for a complete supply of generator diesel fuel.

Please keep us in mind if you need a long-term partner for generator base tanks.

2024 Kennedy Tank Calendars!

We would like to thank **Lisa Young** for mailing out over 300 Kennedy Tank calendars to our loyal customers and vendors. Please let us know if you would like a 2024 Kennedy Tank calendar.

Leaders in Fabricating Columns and Towers

We have the unique ability to build columns up to 14' diameter, as long as 300' and at times as heavy as 200,000 pounds.

Please reach out to any of your Kennedy Tank representatives if we can be of assistance on pressure vessels, tanks, heat exchangers, field-erected tanks, and much more.

Sincerely,

Dave Reinkemeyer: Dreinkemeyer@kennedytank.com, 317-780-3576

Jason Shaw: Jshaw@kennedytank.com, 317-780-3573

Kenny Becknell: Kbecknell@kennedytank.com, 317-780-3571

Heath Knipp: Hknipp@kennedytank.com, 317-780-3574

Jim Kennedy: Jkennedy@kennedytank.com, 317-780-3523

Tim Noyes: Tnoyes@kennedytank.com, 317-780-3526

Jim Dossman: Jdossman@kennedytank.com, 317-780-3554

Paul Bolin: Pbolin@kennedytank.com, 317-780-3528
