The October Edition of Kennedy Tank Talk

Team,

Thank you for reading the October edition of Kennedy Tank Talk. Read below for updates from the Kennedy Tank Team.

Leaders in Distillation Column Fabrication!

This column is currently in service at an ethanol plant and was 90" ID X 136'-0" overall height and weighed 116,000 pounds made of 304 stainless steel with a carbon steel skirt. Our scope included internal tray supports, caged ladders, several platforms, and well over fifty nozzles welded to the vessel.

Kennedy Tank Golf Outing

We had another successful Pat Kennedy Golf Outing on Saturday, consisting of (9)

foursomes. Thank you to all of our teammates and vendors who participated this year and a special shout out to Ryan Land of HSC Industrial Coatings for making the drive from Kansas City to join us again this year.

Congrats to the winning team-Brian Bolin, Patrick Kennedy, Scott Munns, and Ranger Soots.

Also, congratulations to Gerry Hemmelgarn for winning the long drive contest from the red tees!

Marian University Presentation

This week, Bill Kennedy and Dan Yoder presented to the operations management class at Marian University Business School. They shared information about our company's history, which spans over 125 years, and also discussed and gave a live presentation on their PowerBI ERP System.

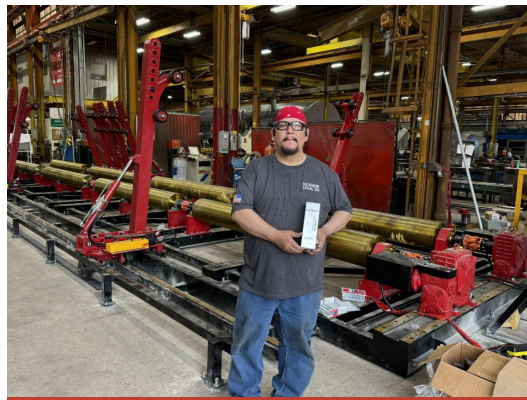

Steel Tank Institute Weld of the Year Winners

Trey Carmack won STI weld of the year via a TIG welding process on a U-tube Heat Exchanger Bundle made of 304 stainless tubes and tube sheets. Congrats Trey!

Congrats to Pat Giddens as well for winning Field Weld of the year!

Carlos Diaz won STI weld of the year via a MIG welding process on a large nozzle utilizing a flat circle welder. This weld was 5/8" with 516-70 carbon steel material. Congrats Carlos!

Experts in Field Erected Tanks!

Please contact any of your Kennedy Tank representatives if we can assist you with pressure vessels, tanks, heat exchangers, field-erected tanks, plant maintenance, and more.

Sincerely,
The Kennedy Tank Team
